## **About This Content**

By August 20 1943, units of 4 gds MC broke through the enemy defenses in a small area near Kalinovka village and are pursuing an offensive in the direction of Kamyshevakha and Artemovka. German forces hold strong points in Kalinovka and in the area of farmst. Alekseevskiy. Units of 31 and 3 gds RC supported by tanks of 7 and 60 gds brt TR are located on the right flank. 140 Tbde concentrated in Elizavetinskiy for a further joint offensive with 387 RD, has the mission to outflank Alekseevskiy, and then to reach the western outskirts of farmst. Semenovskiy.

- Two operations of 23 turns for each of the parties (Kalinovka, August 21-24, 1943).
- Precisely recreated area of over 150 sq. km west of the Mius river, Kalinovka village.
- Historical organizational structure of units at the time of the offensive.

Great story and characters, I love how the game gives you choices and you're not just stuck with a linear path of story to follow. fantastic game. 10V10. I am noob at this game, but I buy this for the pro one, My mom... i really dont like this and ive played the first one alot i dont even know why they created a new game thats a whole diffrent thing and yeah i guess a new ships here and there but come on whats even this i went into this blind and please this is just a waste. It's very cute and recreates the feeling of Gameboy games perfectly, I like it. Decent matching/tetris ish game. What an oddly entertaining game. In Early Access there's not a lot of content yet. 2 cyber bugs and a bedroom. However there's enough here to have fun and to see where this game could be going.

. izi cheaters obvios walls and aim. thank you for lettling me re live one of my all time favorit games from my childhood!!! not a long game but still worth your time!

Noo support for xbox one controller (for windows)

only xbox 360 controllers are supported :V. Whoever wrote the dialogue has never been in a bar in their lives. Pretty cringy.

Saw the great reviews and really wanted to like this game, but ultimatelyI just could not see the point. All there is is unrealistic dialogue with nothing to do.. Okay so i have only played a little of the game but so far it seems cool. Firstly I should mention i'm playing on the Oculus Rift and it works easily and well. The turning does give me strange sensations as many games that don't use the tick turning technique. So far the puzzles are extreamly simple. Its essentialy a walking/driving game that has puzzle elements and its got some surreal elements as you would expect from an alice game. The story is interesting and theres some strange hints in some of the recordings you find so I'm deffinatly wanting to know what happened on the planet. Overall I think its an OK game. Its not brilliant but it is Okay.(remember I'm still early on in the game, just under an hour spent)) I think you will be playing this game for the story and to see the surreal elements (like flying sharks)

My recomendation is if you like Alice in Wonderland and you liked the surreal elements (not the gameplay just the surreal attitude) of American Mcgee's Alice and you like walking/driving simulator with simple puzzles then this game is something that will deffinatly keep you entertained.

p.s. I am finding the interesting points spaced out just right, but people who want a fast acting game will finding it slow and pottentialy boring. So be patient and just sit down when you have spare time and enjoy.. i don't recomend this unless you want chinesse intermodle cars. escape goat 2 is a sequel to escape goat 1. This game has a much better looking goat and the puzzles are less reliant as to which pixel you stand on. The game is differently crafted but you definitely will find in here what was in the original goat escape, though I would have liked an option to play with the graphics of the first because I really loved them.

This one has cool goat animations though, seeing him stand with his legs closed... really nice finish!

This platformer is just as magical in its puzzle design as the first. I also highly recommend it.

you can defintely play this one without having played the first, but I recommend playing the first first, because it is a magical experience.

yes, the goat is magic too.

games with goats are awesome, that's what I came to think recently, but I only saw those two and undertale.. I really like this game it is one of my favourites. as you might be able to tell with how many hours I've played. The only thing I would change is I would like more middle class white male avatars.. Yeah its Half Life? Isn't that enough to convince you?. this is by far one of my favorite little games, way more challenging then the newer titles. Refreshing little RTS, with engaging, fast-paced battles and crude, but oddly charming sense of humor. If you are looking for a strategy game, that is extremely easy to pick up, but ultimately offers a fair amount of depth, Crush Your Enemies is something for you.
